

## Louis G. Dunn – Publications

---

**Acuity Effect of Heavy Resistance Exercise on Visual Functions**, L. G. Dunn. 1964.

**A Brief Resume of the Corporal E Program**, Dunn, L. G. and P. J. Meeks, JPL Report No. 4-45, February 17, 1948.

**A Discussion on the Modification of Standard Bombs to Improve Skip Bombing Technique**, von Kármán, T., L. G. Dunn, and J. Charyk, JPL Memorandum No. 2-1, April 7, 1944.

**The Drag of Streamlined Bodies**, Dunn, L. G. JPL Memorandum No. 2-2, November 10, 1944.

**Heat-Transfer Studies Relating to Rocket Power-Plant Development**, Dunn, L. G., W. B. Powell, and H. S. Seifert, JPL External Publication No. 64. (Published in *Proceedings of the Royal Aeronautical Society Third Anglo-American Aeronautical Conference*, September 13-14, 1951, Brighton England.)

**Investigation of Static Firing Techniques for the A4 Rocket Motor**, Dunn, L. G. and M. M. Mills, JPL Memorandum No. 4-9, July 20, 1945.

**Present Status of the Corporal E Development**, Dunn, L. G., P. J. Meeks, and F. G. Denison, Jr., JPL Memorandum No. 4-59, March 17, 1950.

**Problems in Liquid Rocket Propulsion**, Dunn, L. G. JPL Publication No. 7, November 20, 1946.

**The Status and a Future Program for Research and Development of Solid Propellants**, Dunn, L. G. and M. M. Mills, JPL Memorandum No. 4-5, March 19, 1945.

**Study of a Ramjet Wind Tunnel for Investigation of Ramjet Supersonic Flow Problems**, Puckett, A. E. and L. G. Dunn, JPL Memorandum No. 4-3, January 12, 1945.

**A Suggested Hydروduct Research and Development Program**, Dunn, L. G. JPL Memorandum No. 2-3, December 4, 1944.
